

## The Cold Filter

*But your dead will live; their bodies will rise.*

-Isaiah 26:19

The Cold Filter - where we distill, extract, and retrieve an intoxicating blend from the data stream of other cryonics-related outlets, preserving the resulting brew for further examination and full-flavored information consumption. Topics will include, but not be limited to: cryonics, cryobiology, life extension, bioethics, transformative humanism, and other issues. **Please register a handle or user name, and be certain you're logged in.**
